EDUCATION

The University of Hong Kong

Sep 2025 - Jun 2029

Bachelor of Statistics (Major: Statistics) | Minor in Computer Science

- CGPA: 3.85/4.30
- Relevant coursework: Linear Algebra (A+), Programming Technologies (A+), Multivariable Calculus (A), Statistics: Ideas and Concepts (A)

Peking University Summer School International (PKUSSI)

Jul 2026

Beijing, China

- Developed a global perspective through coursework in international organizations law and the Chinese economy.

PROJECT EXPERIENCE

Shelter Seconds

Jan - May 2026

Team Leader | HKU COMP2113 Course Project | Course Grade: A+ | Project Score: 20/20

github.com/lizhuofei-felix/comp2113-text-game

- Led a 5-person team developing a text-based survival game in C++ for Linux terminals, with a working demo.
- Developed the daily main loop, coordinating resource consumption, character status, random events, exploration, and end-condition checks.
- Designed header-based interfaces linking 7 functional modules through shared game state, with a Makefile-based C++11 build.

AirHelper

Jan - May 2026

Team Leader | HKU CCAI9028 Course Project | Course Grade: A

github.com/lizhuofei-felix/air-helper

- Led a 3-person team building an air quality web app for vulnerable groups, with profile-based advice and large language model (LLM) chat.
- Took primary responsibility for the Python/FastAPI prototype using coding agents, with parallel retrieval of 8 official data feeds and fallback data for demo continuity.

WORK EXPERIENCE

CAS Investment Management

Jun 2026

Analyst Intern | Early-stage PE/VC firm specializing in frontier technology

- Participated in review meetings for several projects and management interviews for a prospective Series B airborne synthetic-aperture radar (SAR) investment, supported by background research.
- Attended post-investment follow-ups and shareholder meetings for perovskite photovoltaic and RSV vaccine companies, including discussions on follow-on financing.

EXTRACURRICULAR ACTIVITIES

IMC Challenge sponsored by Huawei

Jun - Jul 2026

- Tackled a 3D mesh simplification challenge for mobile platforms, exploring the balance between geometric compression and visual fidelity.

Tencent LIGHT Creative Camp

Mar - May 2026

- Explored AI applications for making air quality information more accessible and actionable for vulnerable groups.

SKILLS

Languages: Mandarin (Native), English (Professional)

Programming: Python, C++, Bash

Tools: GitHub, uv, Anaconda, Makefile; Docker, SSH; Claude Code, Codex, Skills, MCP
