PROJECT EXPERIENCE

Team Leader, Shelter Seconds | HKU COMP2113 Course Project

Jan - May 2026

github.com/lizhuofei-felix/comp2113-text-game

- Led a 5-person team through task allocation and deadline management to keep development coordinated; built the C++ main loop and integrated teammates' modules, enabling seamless interaction between modules for a stable, playable demo loop.
- Developed skills in C++ programming, system integration and team coordination.

Team Leader, AirHelper | HKU CCAI9028 Course Project

Jan - May 2026

github.com/lizhuofei-felix/air-helper

- Led a 3-person team and built an air quality web app using vite-coding tools, turning the team's theoretical concept into a usable demo.
- Developed skills in API integration, AI-assisted development and translating user needs into application features.

WORK EXPERIENCE

Analyst Intern, CAS Investment Management

Jun 2026

- Participated in investment review discussions, management interviews and post-investment visits to support investment decision-making and post-investment monitoring and follow-up.
- Gained an understanding of investment decision-making and frontier technology sectors.

EXTRACURRICULAR ACTIVITIES

Residential Student Adviser (RSA), The University of Hong Kong

Sep 2026 - Present

- Provide peer support and guidance on academic and hall-life matters to help residential students navigate university life.
- Developed knowledge of academic advising and psychological wellbeing support through RSA training.

Participant, IMC Challenge sponsored by Huawei

Jun - Jul 2026

- Participated in a 3D mesh simplification challenge for mobile platforms.
- Gained an understanding of the trade-offs between time complexity, space complexity and output quality.
